

Physics seminar

Monday, 25th January 2010 at 15h

41, rue du Brill, L- 4422 Belvaux

Room F0.11-2

Prof. Antoine Kies will speak about

"Use of natural radioelements as environmental tracers"

We report about different measuring techniques and applications through recent measuring campaigns in Luxembourg, Spitsbergen and Congo. Results are discussed in relation with supported geological, geochemical and hydrological parameters.
