

TechESL BOOTCAMP

21 September – 1 October 2010

Small group interaction featuring collaborative internet-based workshops

IT Linguistics Institute

Luxembourg

AccelanTech Accelerated Technical Languages

Teaching Technical English Faster – With Better Comprehension

Prepare your students to find a good job. Help your employees do their job better.

The TechESL Bootcamp is a three-day, total immersion technical English learning experience tailored for new student orientation. The immediate goal is to brush up English skills and to introduce specialized technical vocabulary while working on a challenging class project. The longer term take-away is the bonding between students, coming from many different cultural and linguistic backgrounds, before regular classes begin. Plus, this year's project will be conducted over the internet with grads from Shandong University in China and the Kiev Polytechnic Institute, the National Technical University of Ukraine. Each team will be formed of web-partners with different linguistic backgrounds. Following the success of the Bootcamp in 2009, interest in the course is high so you may want to think of putting your name down right now.

At the end of the workshop and project group sessions, the participating teams' contributions will be judged by a panel drawn from the University, sponsors, and the peer group with prizes awarded for the contribution judged most promising.

The workshop is offered by the University of Luxembourg in conjunction with course designers from IT Linguistics Institute and accelerated technical language specialists from AccelanTech. Participation is open to all first-semester students in the Master of Information and Computer Sciences program at the University of Luxembourg.

Major Sponsors

The Industrial and Commercial Bank of China is in Luxembourg since 1999. In May 2010, ICBC Luxembourg S.A. took advantage of the EU "one passport" policy to establish branches in Paris, Amsterdam, Brussels, Milan and Madrid. Opening by the end of 2010, these branches will provide ICBC with a network covering many of the main European countries enjoying trade and investment relationships with China. Industrial and Commercial Bank of China, Luxembourg Branch & S.A., 8-10, Ave. Marie-Thérèse, L-2132 Luxembourg. Tel:00352 2686 66-1 Fax:00352 2686 6666
