

## Zeiss Microscope Demonstration

In order to purchase an accurate microscope in the P2 laboratory to observe virus transduced cells in their dishes, the LSRU is organizing a demonstration of two microscopes from Zeiss:

-the classical phase contrast **Primo Vert** Zeiss microscope (Primo Vert - The new standard for quick assessment and inspection of living cells; [Download](#)).

-the advanced flexible contrast and fluorescence **Axio Vert A1** Zeiss microscope.

The material will be available for several days until Wednesday the 9<sup>th</sup> of November. You are invited to come with your own cell samples to test the microscopes. Please inform the contact person if you attempt to come.

**Where** Campus Limpertsberg – BS 3.06

**When** Thursday the 3<sup>rd</sup> November 2011 – from 1:30 pm to 4:30 pm
