Student data 2015/16 academic year

MIT GLOBAL SCALE NETWORK

The MIT Global Supply Chain And Logistics Excellence (SCALE) Network is an international alliance of leading research and education centers dedicated to supply chain and logistics excellence through innovation.

SCALE in figures

- > MIT's programme ranked 1st in 2016 US News & World Report in supply chain management / logistics education
- > 6 centres of excellence on 4 continents
- > 12 educational programmes (both online and in residence)
- > 80 researchers
- > 55 academic partners
- > 150 corporate partners

2016 data

TOGETHER, THE PARTNERS OF THE SCALE NETWORK AIM TO

- > Create local supply chain management human capital and expertise in different regions of the world
- > Open up new opportunities for innovation
- > Develop new educational models and paradigms
- > Meet the need for support of global players to improve their supply chain management activities
- > Create a worldwide network of executives, alumni and students.

LUXEMBOURG: A DRIVER FOR LOGISTICS AND SUPPLY CHAIN MANAGEMENT

The government of the Grand Duchy of Luxembourg and the University of Luxembourg, through a partnership with the Massachusetts Institute of Technology Center for Transportation and Logistics (MIT CTL), founded the Luxembourg Centre for Logistics and Supply Chain Management (LCL) in late 2015. The LCL aims to become a European leader for education, research and innovation in logistics and supply chain management.

The 2016 Logistics Performance Index ranked Luxembourg 2nd worldwide. Logistics is one of the sectors selected by the government of Luxembourg to be intensively developed as part of its economic strategy. The country is home to a large number of companies active in the field and an attractive job market. As a major thoroughfare in central Europe, the country has significantly expanded its air, rail, road and water transport networks over the past decades, making it a modern logistics hub in the EU.

MISSION OF THE LCL

Innovative research and teaching excellence with practical relevance

Luxembourg Centre
for Logistics and Supply
Chain Management (LCL)

Research areas
