

Physics and Materials Science Programme of the DSSE

Training activities of doctoral candidates without certificate

Explanation:

ECTS points are given for training the doctoral candidates has received in disciplinary or interdisciplinary knowledge and methods as well as in transferable skills. For courses usually a certificate is issued. This is sufficient, no need to fill in this form. For outreach activities a special form exists, please use it to validate ECTS points for outreach activities. All other activities can be certified and validated using the current form. By signing this form the supervisor confirms that the activity involved training, i.e. instructions and feedback. **If the activity is a talk or poster at a conference or workshop presentation please include a copy of the programme.**

Name of doctoral candidate:	
Name of supervisor:	
Name and type of the activity (Please, write the full name. In general, we don't know what the "XYZ workshop" is)	
Location, date and duration of the activity 1 ECTS point corresponds to 25 hours of actual work	
Short explanation: How much time did you spend for preparation. How was the activity helpful for (inter)disciplinary or transferable skill training? What was learned?	
Signature of the doctoral candidate and the supervisor
