Common research platforms

- Disease Modeling Screening Platform -

Starting point

Common scientific objectives

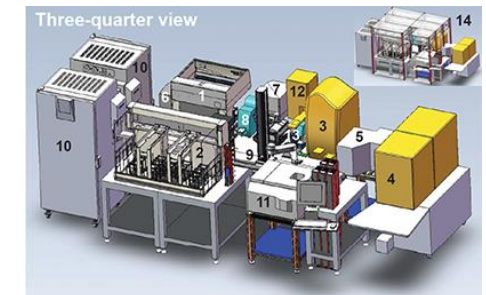

Shared instrumental needs

High costs

FNR-Pearl Rejko Krüger

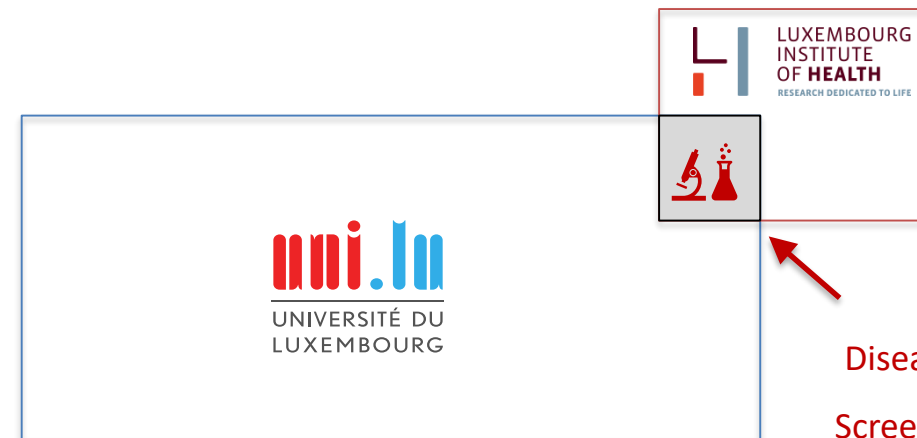

- Personalised Medicine -
Screening on patient-based cellular models

Common Research Platform

- Shared scientific objectives
- Contractual strategic and structural collaboration
- *Mise en commun* : budget, staff & equipment
- Cost efficiency
- Mutual access to institutional infrastructures

DMSP
Disease Modeling
Screening Platform

“Core facility for translational research”

Interinstitutional Research Group (IRG)

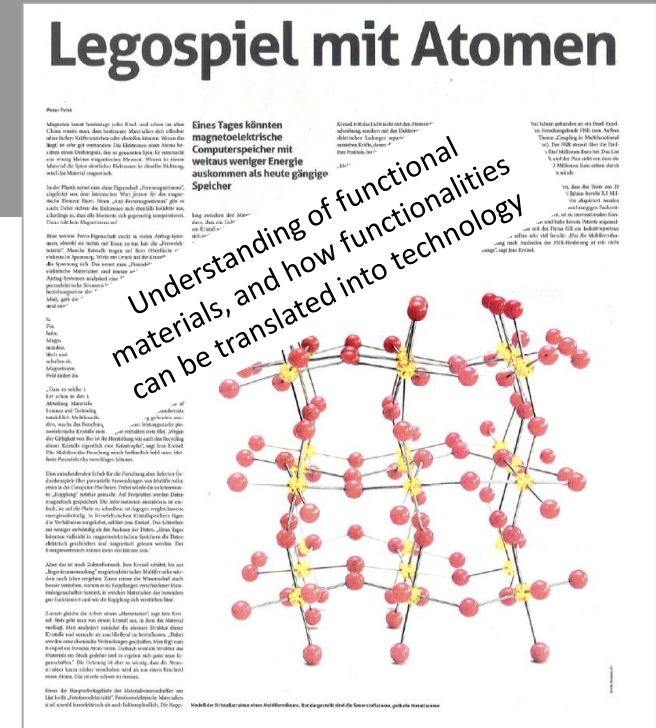

- Functional Materials -

Starting point

Common scientific interest

History of common projects

FNR-Pearl Jens Kreisel

Interinstitutional Research Group (IRG)

- Shared scientific objectives
- Contractual strategic and structural collaboration
- Common national/international projects
- Co-affiliated to both institutions
- Mutual access to institutional infrastructures

IRG
"Functional Materials"
