University of Luxembourg

Entrepreneurship Programme

Incubator

Academic year 2020-2021 – Summer semester
Our motto

Entrepreneurship is a skill that can be taught and learned!
Who we are

The Entrepreneurship Programme and Incubator were founded at the University of Luxembourg. Its main purpose to teach entrepreneurial skills to the university students, researchers and staff in an extreme hands-on environment. Our mission is to build a bridge between the University and the professional world while opening new career perspectives and opportunities. With a design for non-business students, through this approach, the Entrepreneurship Programme and Incubator strive to create a learning and living environment. We encourage and support all our participants to become well-rounded individuals where they can develop into successful leaders in both business and the community.

The Entrepreneurship Programme’s mission is to offer relevant courses and workshops to develop entrepreneurship skills beyond the core education.

University of Luxembourg Incubator is a place where you can come to create your own enterprise and run it with mentoring, admin and further support from the Incubator, until you are ready to start your own journey in the business world.

The combined support and services offer ONE-stop solution for all entrepreneurial activities at the University of Luxembourg.
Our services

Our services offered to the University community are divided into three main pillars for different awareness and competence levels:

**Creating curiosity towards entrepreneurship and familiarizing yourself with what it takes to be an entrepreneur or intrapreneur and stepping outside your comfort zone.**

**Providing a portfolio of learning-by-doing trainings and workshops to facilitate entrepreneurial skillset development and promoting venture creation.**

**Contributing to the success and growth of the University entrepreneurial projects and bringing tremendous value to the startups by providing a structured stage-gated framework support for startup projects in all stages of their development.**
Who can participate

Anyone who is interested in discovering innovation and entrepreneurship from Master’s and Bachelor’s students, doctoral candidates (PhD), researchers across the three Faculties and the three Research Centres at the University of Luxembourg. As the Entrepreneurship Programme is interdisciplinary by nature, students, researchers and staff from all disciplines are encouraged to apply for our programmes and initiatives.
Educational objectives

Many of you will make a switch to the modern labour market at some point in your career. Knowledge of business aspects such as innovation, marketing, leadership, team building, intellectual property rights, finance and business models is essential to succeed. However, in the academic arena in which students learn their core educational skills and researchers finetune their scientific skills, these subjects are not often elaborated upon.

The Entrepreneurship Programme offers several immersive and interactive courses and workshops, designed to test your entrepreneurial appetite and jumpstart your entrepreneurial adventure. Whether you want to ignite your entrepreneurial spirit or get just enough flavour of entrepreneurship to flourish as entrepreneurs within any organization, you will learn the basic building blocks to excel. Looking at the world with an opportunity-oriented mindset, we put you in the entrepreneurial roles to work on your chosen ideas and concepts.

Through our courses and workshops, you will gain experience in following an inter-disciplinary approach as well as the capability to brainstorm, think outside the box, and to generate ideas with the aim to improve your entrepreneurial skillset including:

- Communication
- Teamwork
- Networking
- Decision-making
- Complex problem-solving
- Critical thinking
- Creativity
- Negotiation
- Time management
- Marketing skills
- Leadership
- Flexibility and adaptability
- Strategical and innovative thinking
Learning outcomes

With a wide breadth of knowledge of entrepreneurship, creativity, innovation and business essentials, the skills learned are vital for the success of any business, in new ventures as well as in established companies. The goal of this set of programmes is to provide you guidance with an overarching framework:

- To be aware of entrepreneurship opportunities
- Debunk the top myths of entrepreneurship
- To be able to professionalize your startup or research projects
- To be aware of how to develop an entrepreneurial project:
  - Identify an opportunity or a problem worth solving
  - Evaluate an idea and engage with a wide range of stakeholders
  - Perform market research and choose your target audience
  - Brainstorm and design a creative innovative solution
  - Test your solution with potential customers
  - Strategize your venture growth development
  - Pinpoint and manage the critical risks
  - Build a financial model and discover the key financial information
  - Learn to pitch effectively
- Interact effectively with your peers with diverse skills and experience
- Network with relevant stakeholders in the entrepreneurial, startup and business ecosystems in Luxembourg and internationally
Through this approach, you will be able to:

- Explore, reflect, analyse, and communicate critically and effectively
- Create, identify, assess, shape, and act on opportunities
- Create a sustainable, innovation-based business
- Get the skills and knowledge to access local resources and networks in Luxembourg for starting a new venture or innovative project
- Get the analytical skills needed to solve quantitative and qualitative problems and effectively communicate their results
- Learn how to use your mind, your heart, your voice, and your ears in order to constructively engage and collaborate with others through active group participation
Teaching methods

The foundation of the Entrepreneurship Programme is the inductive learning method, a very interactive and highly engaging approach to learning. The inductive learning process is very powerful. It requires you to develop and refine your capabilities to think creatively and develop new approaches to problem-solving. By investing in learning using the inductive method, you will develop mental habits that will serve you well as you face new challenges in our rapidly changing world.

The main goal is that you will acquire a transversal skillset helping you succeed in any leadership role be it as leading entrepreneurs or as successful intrapreneurs in the professional world. We aim to achieve this goal by exposing you to inspiring speakers, targeting skillset development via educational courses workshops and finally, by helping you learn via tackling unique challenges.

Courses are taught in-pience, online, or in hybrid classes, which in turn consist of a mix of discussions, problem-solving in teams as well as self-study. Moreover, the Entrepreneurship Programme is completed with interactive and online workshops sessions, videos, lectures and readings in a few major topic areas.

Group discussions and active collaboration (remotely) among participants are encouraged for all our activities and essential to learning.
Mentors and Speakers

To discover the truth, you need to ask questions. You need to interact and engage with your peers as well as the mentors and guest speakers while sharing ideas and experiences. They will be your greatest resources for exploring new ideas, considering tough questions, and developing new principles.

Impression of the company affiliation of our speakers and mentors from the entrepreneurial, startup and professional ecosystems.
**Entry requirements**

Unless otherwise mentioned, no previous business or entrepreneurship experience is needed. Join us to embark on your entrepreneurial or intrapreneurial journey!

You are, however, required to interact and communicate with your peers as well as mentors, speakers and course coordinators. Therefore, a working knowledge of English is required (B2).

You are also required to have your own laptop or tablet to be able to download the workshop materials and to work during the team working sessions using several IT tools such as Webex teams, meetings and events; Microsoft Teams, MS Office (PowerPoint, Excel, Word).

In specific cases, fees are applied to some of the proposed courses or workshops (course materials, coffee breaks, lunches, dinners, etc.). In that case, a limited number of reduced fees are available to participants via scholarships. Please contact incubator@uni.lu for more information.

**Certificate**

To prove the completion of the courses and workshops through the Entrepreneurship Programme, you will receive a certificate for the number of hours attended and ECTS credits (if applicable) after the completion of the course or the workshop.
Here is a short summary of some of our programmes, events and initiatives in which students, researches and staff can participate.

- 1 ECTS: self-reflection related to your field of studies (in collaboration with study directors with whom you are respectively enrolled). Criterion for assessing the self-reflection are based on the following rubrics: clarity, relevance, analysis, interconnections, self-criticism.
For all students (Bachelor’s, Master’s and Doctoral candidates)

**Ideation Camp**

**Description**

The Ideation Camp is an experiential and interactive challenge in which you work in cross-disciplinary teams to tackle challenges, come up with solutions, assess your ideas, launch your ventures, and to pitch your work in front of investors at the end of the event.

In this context, the productivity of the different teams is highly dependent on their level of leadership, and on their capability to take decisions within a short period of time.

This methodological approach gives you the understanding of what it means to work in a startup, a multidisciplinary team or an innovative environment.

**Prerequisite:** none

**Evaluation / assessment**

- **2 ECTS:**
  - JumpStart workshops [2,3,4,5,6] assignments (to be done before actual Ideation Camp)
  - Full attendance and active participation to the programme + pitch deck + final presentation

<table>

**3 ECTS max**

7th ed: 16 to 20 Feb.
8th ed: 27 April to 01 May
“The Ideation Camp was a unique opportunity to dive into the world of entrepreneurship. Although it is constructed as a competition, winning is not necessarily the end goal. Meeting and working with skilled and highly motivated people as a team on a common project made this event a full success. Being able to talk to highly influential and experienced mentors was incredibly valuable and rewarding.”
MIKE PEREIRA GONÇALVES (FSTM)
Participant Ideation Camp 1

“I really loved the Ideation Camp, one of the best experiences so far, I had at the University! Thank you very much for this opportunity, keep on doing such great things for the students of the University of Luxembourg.”
YASEN BUHLEV (FDEF)
Participant Ideation Camp 3

“I participated 3 times and still don’t feel like I had enough. A fantastic journey that you wish it never ends”
MOHAMMED BAZIGHIFAN (FSTM)
Participant Ideation Camps 4, 5 & 6

“The Ideation Camp was overall a great experience! It was so much more challenging than I expected but at the same time I learned a lot more than I thought, […] It is tough but combined with a lot of fun, I made connections to people I would have never met without participating. It is definitely one of the best programmes the University if offering. The experiences I made will follow me after my graduation into the real life and I will look back to the Ideation Camp with a big smile and grateful heart that the Entrepreneurship Programme gave me the opportunity of experiencing that.”
XENIA SAUER (FHSE)
Participant Ideation Camp 6

“Guys, this event might be the most important one for you as a student, your first step in the entrepreneurial world. The networking you will get is just priceless… Feel free to join the movement.”
ASTOU NDIAYE (FDEF)
Participant Ideation Camp 5

“Before participating to the Ideation Camp, I had no idea what entrepreneurship was about. I was doing my Bachelor degree in Psychology at the University. During the 3 days, a combination of motivation and ambition developed, that was amazing and had a lasting effect on me. Today we are still working on our start up, developing a prototype, interviewing customers and meeting with mentors. I would never have expected that this programme would change my life in such a meaningful way.”
MARA KROTH (FHSE)
Participant Ideation Camp 3

“Testimonials”

“Ideation Camp helped me to be more confident, especially more confident to pitch. It takes you out of your comfort zone and challenges you. But after all the work, you will feel proud and accomplished”
CINDY MACHADO (FDEF)
Participant Ideation Camp 6

“After attending various Ideation Camps, I can say that each time it is an unforgettable experience. Coming out as winners or not, the lessons you learn and the people you meet are fantastic. You are surrounded by amazing staff and professionals that are truly at their ultimate disposal to help you with anything and everything. Ideation Camp is an incredible time if you like entrepreneurship or not and gives you an idea of how the real professional world really is.”
MIKAEL DASILVA (FDEF)
Participant Ideation Camps 5 and 6

“Guys, this event might be the most important one for you as a student, your first step in the entrepreneurial world. The networking you will get is just priceless… Feel free to join the movement.”
ASTOU NDIAYE (FDEF)
Participant Ideation Camp 5
For all students (Bachelor’s, Master’s and Doctoral candidates)

Disciplined Entrepreneurship Masterclass

**Description**

Do you have an idea that gives wings to your mind? You want to see this idea put into practice to bring new solutions to the world’s problems and make our lives a little better? You feel ready to start the adventure of becoming an entrepreneur and want to learn how to do this right from the beginning?

This 2-day Disciplined Entrepreneurship Masterclass is animated by the renowned entrepreneurship lecturer and best-seller Author Prof. Bill Aulet and offers a deep dive into the MIT entrepreneurship methodology: a systemic and rigorous 24 steps to build your own innovation-based venture. This methodology is very practical while also being easily accessible and fun.

Join for a sustainable learning experience with a host who calls himself “a crazy entrepreneur” and remains very accessible and supportive despite his fame. Learn the proven basics of entrepreneurship from the best and take the chance to get valuable feedback on your personal business case.

**Prerequisite:** none

**Evaluation / assessment**

- **1 ECTS:** Full attendance and active participation into the masterclass (50%) + self-reflection on your own learning experience (50%). Criterion for assessing the self-reflection are based on the following rubrics: clarity, relevance, analysis, interconnections, self-criticism.
Lecture series / workshops

Description
This programme enables you to enhance your transversal, entrepreneurial and soft skills, inviting innovators and entrepreneurs across all organizations to share their know-how, valuable lessons from their successes, failures and their thoughts on several topics: sales & marketing, hiring and culture, building products, strategy etc.

Example of lecture series/workshops:
- **Personal development:**
  - How to negotiate and convince?
  - Managing a team
  - Making right decisions
- **Business:**
  - Circular economy
  - Tips for making effective presentations
  - Inbound marketing

Join us and boost your employability!

Prerequisite: none

“Strangely enough, I enjoyed the first session of the workshop and thank you for encouraging me to do so, as I think it is useful for me as well. To be honest, I was afraid that I wouldn’t understand anything because the marketing field is a whole new world to me, but I found a lot of common ground with psychology, so it made sense! Although we were a lot of people in the session, it went smoothly.

I loved Ruchi’s [instructor] transmissibility, her eagerness to answer each of our questions and that she tried to make it as interactive as possible”

MARIA KRITSOTAKI (FHSE)
Participant workshop series “Marketing Ready”
For Doctoral candidates and researchers

Introduction to Entrepreneurship

Description

In collaboration with the Office of Doctoral Studies, we offer to all PhD students across all Research Centres in Luxembourg (Uni.lu, LIST, Liser, etc.) a 50 hours' course to learn the foundation of entrepreneurship and innovation and how to professionalize a research project. The course consists of a mix of interactive workshops, discussions, and problem-solving challenges tackled by researchers:

- Workshop 0: Deconstructing your PhDs: comparative analysis between a researcher and an entrepreneur & Unlock your PhD project
- Workshop 1: Welcome to entrepreneurship
- Workshop 2: Imagination, Creativity and Madness
- Workshop 3: Spot opportunities and assess your idea
- Workshop 4: Your customers
- Workshop 5: Mapping your research project with the Business model canvas
- Workshop 6: How to pitch?
- Workshop 7: Build your financial model
- Workshop 8: Create your company in Luxembourg in 10 steps

Although all doctoral candidates are very welcome to join, the focus is on the 1st and 2nd year PhD students (3rd year PhD students and researchers would find the Summer School more interesting!)

Prerequisite: none

Evaluation / assessment

ONLINE SELF-PACED
International Summer School in knowledge-driven entrepreneurship and innovation

Description

It all starts with innovative technologies. However, they are worth nothing unless they become enacted in the market and ideally lead to new business creations. The Summer School is an advanced one-week programme on entrepreneurship and innovation in which you experience the full innovation and entrepreneurship cycle that provides knowledge, skills, tools and support to create their own startups.

In essence, you will answer 6 key questions:

- What is the value that you are trying to create using your research or know-how? [MEANING]
- How to design the business model of your venture? [MODEL]
- Do you have a good understanding of your customer and have you identified the beachhead? [MARKET]
- How much funding do you need and have you quantified the risk-reward? [MONEY]
- How to resource the execution? [MANAGEMENT]
- What are the key make-or-break instances of your venture journey? [MILESTONE]

Through this 6M model, you will become aware of how to create value in a competitive landscape and how to create a new business based on original technological ideas. You will also understand that using innovation to create a new business is a realistic career choice for those who want to pursue it.

This methodology has been developed by Prof. Ted Zoller, managing director of the Entrepreneurship Centre at the University of North Carolina, an entrepreneur and expert in venturing and education. Ted is also the course coordinator of this summer school and following this learning by doing approach, you will:

- acquire artistic and creative methodologies related to the discovery and development of any idea or business opportunity
- get the opportunity to transfer your findings into a successful business idea with a viable business concept and plan

Prerequisite: preferably one or both of the following programmes:

- Introduction to Entrepreneurship
- Ideation Camp

Evaluation / assessment

- 2 ECTS: full attendance and active participation to the Summer School
- 1 ECTS: develop a holistic view of your business by building your own business model canvas (BMC), financial model and pitch deck based on the 6M model:

TESTIMONIALS

“The Summer School was a memorable experience. The content of the course was exactly what I needed in order to understand the foundation behind the entrepreneurial mindset, and it encouraged me to look at my work and my professional career through a new perspective. I enjoyed the company of such a diverse group of people, and was very impressed and uplifted by the experience, knowledge and kindness that the team so generously gave away every day. Thanks for accepting my participation, it was a real pleasure!”

BRENDA RAUD (www.twincore.de)
Participant Summer School 1

"It was a fantastic experience. I had a comprehensive learning about the different stages of business creation. I could see that many people came motivated for the course and left even more motivated. Thanks!"

GABRIEL LEAL (www.list.lu)
Participant Summer School 1

"It was a great summer school all around. Ted was a great speaker, which made it possible with the tight schedule to still follow the classes. I loved the interaction I had with several people and the learning I could accumulate”

Joao Afonso (www.list.lu)
Participant Summer School 2

“The knowledge acquired during the summer school is a source that we can go back to at any time during our entrepreneurial journey”

GIRA SZAKMÁR (https://edugamitec.com/)
Participant Summer School 1

"Summer school was great; the incubator has awesome people and Ted [Zoller] is a fantastic teacher. I think it's a great opportunity to offer this program. I totally recommend it.”

DR. PEDRO CARDOSO-LEITE (https://www.uni.lu/)
Participant Summer School 2

“One week of intense immersion into the world of hands-on Entrepreneurship in the middle of woods with Canoeing, Mountain Biking, Tai-Chi and memories to cherish for lifetime”

DR. ROY SOMESHWAR (https://myxupo.com/)
Participant Summer School 2
Description

Turn your business ideas into reality

Venture Mentoring Service (VMS) of the University of Luxembourg Incubator is a programme that helps you – the University’s entrepreneurs (members of staff, students and alumni) – to turn your entrepreneurial ideas into a real business. Under the license of MIT and as an affiliate sister programme, the VMS programme provides tailored support and industry experts to suit every venture’s needs regardless of their level of experience and stage. The programme is proud to have 35 mentors in the VMS pool which equals to almost 750 years of experience.

VMS programme has an educational focus and our goal is to provide you as an entrepreneur with the tools, knowledge, resources, and network to ensure that you have the greatest chance at success, whether you are a serial entrepreneur working on your next big thing or if you have no previous experience starting a business. Our mission is to create the next generation of entrepreneurs and we are here to guide you on your journey of entrepreneurship.

**Prerequisite:** mandatory to attend one or several of the following courses/workshops:

- Introduction to Entrepreneurship
- Ideation Camp
- Summer School
- Disciplined Entrepreneurship Masterclass

**Check out our videos!**
Falling Walls Lab

Description

*Falling Walls Lab to discover the innovators of tomorrow!*

The Falling Walls Lab pitch competition aims at promoting exceptional ideas and at connecting promising scientists and entrepreneurs from all fields. Labs are organized at academic institutions across the world each year to identify the region’s most innovative minds.

The Falling Walls Lab Luxembourg is a platform for academics, entrepreneurs and professionals from all disciplines, providing them with an opportunity to present their “wall breaking” idea to a broad audience and a distinguished jury from academia and business.

The event is part of the international Falling Walls Lab initiative with the aim of providing a forum for the next generation of outstanding innovators and creative thinkers. All over the world, participants get the opportunity to present their research work, business model, or initiative to peers, a high-caliber jury made up of experts from academia and business, and the general public - in only 3 minutes each.

**Prerequisite:** none
Entrepreneurship internship for Bachelor’s and Master’s students

Build your own internship

Description

This programme is an immersive and interactive 2-months internship in which you work in multidisciplinary teams to develop innovative solutions for a problem, interact with potential customers to validate your solution, create an effective slide deck, pitch your startup idea and write an executive business plan.

“Build your own Internship” is structured into three distinctive tracks that introduce the tools necessary to understand and apply entrepreneurship and innovation in practice. Each track offers you the possibility to engage with guest speakers from the entrepreneurship ecosystem in Luxembourg:

- **TRACK 1: MAKING INNOVATION HAPPEN** (week 1)
  Reflective writing piece on ideas, pains and opportunities

- **TRACK 2: START YOUR ENTREPRENEURIAL JOURNEY** (weeks 2 to 8)
  With confidence and guidance, you practice the entrepreneurial path and tools to overcome the initial challenge of building their own ventures with strong support from our mentors

- **TRACK 3: THE ULTIMATE ENTREPRENEURIAL CHALLENGE** (week 9)
  Build a solid slide deck and pitch your business to the next level of success

Prerequisite: mandatory to complete the workshops [1,2,3,4,5,6,7,8].

Evaluation / assessment

- **10 ECTS:**
  - 30%: active participation to the programme including mentoring sessions, preparatory work, idea validation, etc.
  - 15%: reflective writing piece on ideas, pains and opportunities
  - 15%: self-reflection – an opportunity to write about your experience, thoughts and feelings
  - 20%: elevator pitch
  - 20%: executive business plan (2 pages max)

Check out our video!

Variant: this programme can be organized from 01/03 to 28/05/2021 with possibility of extension. ECTS can be provided upon the approval of the Study Director.
“I'm very grateful for the opportunity to participate in the "Build your internship" programme. The intensive two months programme has prepared me for real life situations through providing a comprehensive mix of theoretical and practical know-how. The positive and supportive atmosphere has helped me to learn a lot and enhance my skills.”

DANIELA IGNA TOVA (FHSE)
Participant Build your own Internship 1st ed.

“It was an incredible experience to start with, following multiple self-paced workshops and working as a team under the guidance of different experienced mentors from the industry.”

NISHTHA SHARMA (FDEF)
Participant Build your own Internship 1st ed.

“I really appreciated this programme! At the beginning, I had poor knowledge in this field and I had no idea on how launching a venture. Now, I feel more confident with working on projects as I know the process and what I first have to focus on.”

THEO GAMBON (FHSE)
Participant Build your own Internship 1st ed.
**Description**

This programme gives you the real experience of the working life at a startup and provides recent UL Incubator startups with the resource of a talented intern to help them develop their opportunities.

During the internship, you will:

- gain an understanding of how an early-stage startup functions
- be assigned to projects based on your skill set and the startup’s business strategy
- experience true action learning by having an opportunity to immerse in the startup life
- work side-by-side with the founding team and collaborate with UL Incubator

**Prerequisite:** mandatory to attend one or several of the following programmes:

- JumpStart
- Ideation Camp

Entrepreneurship is a state of mind

Having the eye to see an opportunity, having the skillset to act upon it, having the perseverance to materialize it
