

How to register ECTS points for outreach activities

Requirements:

In order to reward a doctoral candidate with ECTS points for participation in an outreach activity, the activity needs to have some form of education character for the doctoral candidate. This is the case, if the outreach activity can be regarded as applied training of certain skills (e.g. science communication), which involves supervision of the doctoral candidate (not necessarily the supervisor of the doctoral thesis) and giving her/him feedback on her/his performance. With her/his signature the supervisor of the outreach activity confirms this requirement is fulfilled.

Furthermore, the following requirements need to be fulfilled. The doctoral candidate must:

- At least invest 13 hours into the outreach activity (corresponding to 0.5 ECTS)
- Be involved in the preparation/conception of the outreach activity
- Be involved in the implementation of the outreach activity

Procedure:

Here we explain how you register your activities to obtain ECTS points:

Please fill out the attached form, have it signed by the supervisor of the outreach activity and send it to the Admin of your Doctoral Programme (see list below to find the correct contact person). Your points will then be registered.
