Faculty of Humanities, Education
and Social Sciences

Dear graduates,

I would like to sincerely congratulate you on your successful graduation. The Faculty is proud of you and we wish you all the best for your future endeavours. You are among the students who completed their studies under the extremely difficult conditions imposed by the COVID-19 pandemic. While the University of Luxembourg has done everything to meet the lockdown requirements and to carry out online and hybrid teaching in the best possible way - I am nevertheless aware of how difficult it has been for you to study under these conditions. Therefore, you can be very proud of what you have achieved.

The graduation ceremony not only marks the end of an important period in your life; it also marks the beginning of a new one, and it usually opens many doors that were previously closed. The future is an open book, and while this may seem unsettling for some of you, I am strongly convinced that you have acquired the knowledge and skills to embark on a career full of possibilities.

Your training in the humanities, educational and social sciences has taught you to work with passion and responsibility on your own projects and to be open for new challenges, but also to reflect critically and, if necessary, to contribute to societal change. We would like to encourage you to make use of these abilities, and we wish you great success and happiness in your new duties.

What distinguishes our faculty is the fact that our topics and questions are based on people and society. This is also reflected in our Bachelor and Master programmes: many of you will become teachers, psychologists, social workers, others will work in the cultural sector, in European institutions and still others in the public sector, e.g. as urban planners. We are convinced that we have given you all the necessary tools, but the process of learning does not end with the handing over of your diploma. You will have to constantly improve your qualifications, and the challenges of digitalisation in particular cannot be grasped at all today. Stay confident and, above all, stay curious, then you will master every challenge!

To quote the American philosopher Ralph Waldo Emerson: "Do not go where the path may lead; go instead where there is no path and leave a trail." Student life is not only about learning and preparing oneself for the future; it is also about making friends for life and discovering new interests. We sincerely hope that you have enjoyed the experience of being a student at the University of Luxembourg and that you will stay in touch with us as alumni.
